●FULL STACK DEVELOPMENT PROFESSIONAL

EXECUTIVE SNAPSHOT

IT Professional with experience of **6+ years** across **Frontend and Backend or full-stack software development,Enterprise-level PHP development, design & development of distributed systems. Strong background Building Web application from scratch.** Spearheading efforts with **Diya System** as a **Sr. Software Developer**

SYNOPSIS

- **Expertise in Agile/Scrum environment** with demonstrated ability in system design **Skilled in client-server technologies, cluster architectures, deployments** and **understanding of test driven development and unit testing.**

- Demonstrated strengths in **writing well designed, efficient code** by using best software development practices. Capable of **creating website layout/user interfaces by using standard JavaScript, HTML5, CSS3, ReactJS practices** and **Integrating data from various back-end services and databases.**

- Armed with thorough knowledge of **PHP, JavaScript and Codeigniter (MVC), JQuery, bootstrap, MySql, Strong background building web application from scratch, Linux Web Server Administration, Hardware and Networking.**

- In-depth knowledge of all phases of **Software Development Life Cycle** with concentration on requirement & design analysis, development planning, tools & technologies selection, code/design reviews, UI Development and delivery.

- Sound Knowledge of front end technologies & server side programming languages including familiarity with REST API development. Proficient in **understanding server side languages.**

Skill		
Skill	**Years**	**Level**
Client side Technology		
Javascript	**6+**	**Expert**
jQuery	**6+**	**Expert**
Reactjs	**0.3**	**Beginner**
Angularjs 1	**0.4**	**Beginner**
CSS	**6+**	**Expert**
HTML	**6+**	**Expert**
Boostrap	**5**	**Expert**
other js libraries based on requirement	**-**	**-**
Server side Technology		
PHP (codeigniter)	**5+**	**Expert**
Nodejs (ExpressJS)(Webservices)	**0.4**	**Beginner**
Perl (Mason)	**1**	**Mid**
Slimframe (PHP)	**0.6**	**Mid**
CMS		
Wordpress	**2**	**Mid**
Silverstripe	**1**	**Mid**
Database		

MySql Mongodb	2 0.4	Mid Beginner
Server		
AWS Used Shared Hosting : Godaddy,bluehost,hostgator,ipage		
Other		
IDE : Sublime, atom,Net beans,notepad+ **Version Control:** Git,SVN **Software :**Adobe Photoshop, Adobe Illustrator, Visual Basics, Android SDK, Dream Viewer,Adobe Flash, 3D MAX, Autodesk MAYA, Adobe After Effect, Sound Forge, Windows XP/Vista/7, Linux, Ubuntu, Mac		

PROFESSIONAL EXPERIENCE

DIYA SYSTEM   **since June 2016**
Senior Software Developer

Projects Undertaken:
- **Ipage.com** - PSD to html converting, Sass, JavaScript/ JQuery and Perl (Mason Framework)
- **Bluehost.com** - PSD to html converting, JavaScript/ JQuery, Sass, Perl (Mason Framework)
- **Hostgator.com** - PSD to html converting, JavaScript/ JQuery, Sass, Perl (Mason Framework)
- **Netfirms.com** - PSD to html converting, JavaScript/ JQuery, Sass Perl (Mason Framework)
- **Hostgator.com** - PSD to html converting, JQuery and Sass
- **EEP 3.0** - ReactJS,evergage

Responsibilities:
- Understanding sprint requirement in Planning and Scrum
- Building UI based Clients Requirement
- Creating User Experience
- Converting invision/sketch files to web pages
- Creating Monetate experience using JS for Marketing team
- Creating GTM Tags and triggers for user behavior tracking
- Bug Fixes

UTILE SOFTWARE SOLUTIONS PVT. LTD.   **Dec 2015 - May 2016**
Software Engineer
Responsibilities
- Building Wordpress theme
- Integrating API frontend using angularjs 1
- Designing UI using css and HTML

GIGAQUIRKS (WORK FROM HOME)
Software Engineer

Projects Undertaken:
- **Select.gigaquirks.com** - Database design, Codeigniter (PHP, MVC), JavaScript, JQuery, Ajax, fullcalendar.js, Bootstrap, CSS, html, Other works
- **Wordpress** - JQuery, JavaScript and many JavaScript library dependence on client requirement
- **Magneto** – bug fix
- **JQuery Animation Site**

Responsibilities:
- Implementing procedures for creation of wireframes and prototypes for new user interfaces.
- Assisting in designing and development of relational databases for supporting back-end designs.
- Providing technical assistance for development and deployment of large scale sites.
- Supporting technical team members in development of functional and visual user interfaces.

- Executing processes for integration of program code with content management systems.
- Participating in continuous learning of web development methods and UI designing trends.
- Defining and coordinating the technical tasks for the development of the software and/or interfaces
- Working with vendors and serving as the interface between the developers and the project manager
- Acting as a mentor for the developers on the team and often developing architecturally significant components of the software system and/or interfaces
- Ensuring all the developers understand the big picture because their work has implications
- Knowing the status of the developer's work and detect slippage
- Communicating technical issues/decisions effectively to PM and sponsor by using business terms

CODE CRAFT TECHNOLOGY
Software Engineer
Responsibilities:

- Worked on redesigning of code craft home page (Codecraft.co.in)
- Managed the complete life cycle of development/ support projects including analysis of the client requirements, translated new ideas into client solutions, requirements development, delivery, support, analysis and documentation.
- Designed & developed the user interface; created front-end design & carried the design & development of many client sites.
- Provided guidance on the projects and its requirements to the clients over the technology, processes and applications while updating them on the regular project related developments.
- Coordinated end-to-end development of software products from requirement analysis to system study, designing, coding, testing and debugging.
- Ensured smooth implementation of the project within the specified time lines and extend post-implementation, application maintenance and technical support to end users

Projects Undertaken:
- **Maville** - Admin panel and web service, Bootstrap 3, Code igniter (MVC ,PHP), JQuery, JavaScript, AJAX, Database design and Integrated weather API
- **Fanspectrum.com** - JavaScript, JQuery - bug fixing, PHP - bug fixing and UI – CSS – bug fixing
- **Renault.co.nz** - Converted PSD to silver stripe theme - PHP
- **Birthday Buddy** - Admin Panel and Push Notification
- **Demo projects for clients** - Worked in Word press for client and PhoneGap

BILL MAIL ID PVT. LTD.   **Aug 2011 - Jan 2013**
Jr. Software Developer

Projects Undertaken:
- **BillmailId.com** - Ruby on rails – Social Login, Change Password, JQuery – validation and tooltips,
- **Bmdhouse.com** - PSD to html converting, JQuery animation, CSS, Html and PHP
- **Paymycabletv.in** - CodEigniter (PHP), JQuery, JavaScript, AJAX, CSS and Html

ACADEMIC CREDENTIALS

2009	**Bachelor of Computer Application** from Mangalore University
2011	**Android Application Development** from Name of the Institute
2010	**Diploma in Animation & VFX** from Genius Port, Mangalore University

PERSONAL DETAILS

Date of Birth: 14th November, 1988
Language Proficiency: English, Hindi,Kannada, Malayalam and Tulu
